## Computer-Aided Dispatch

**A POWERFUL, USER FRIENDLY DISPATCH TOOL BUILT WITH OFFICER SAFETY IN MIND**

KOLOGIK's Computer-Aided Dispatch (CAD) is an easy-to-use interface that provides police, sheriff, fire-rescue and EMS departments with a seamless exchange of information between callers, telecommunicators and responding units. The result: improved situational awareness for officers, faster response times and smoother workflows.

### AT A GLANCE

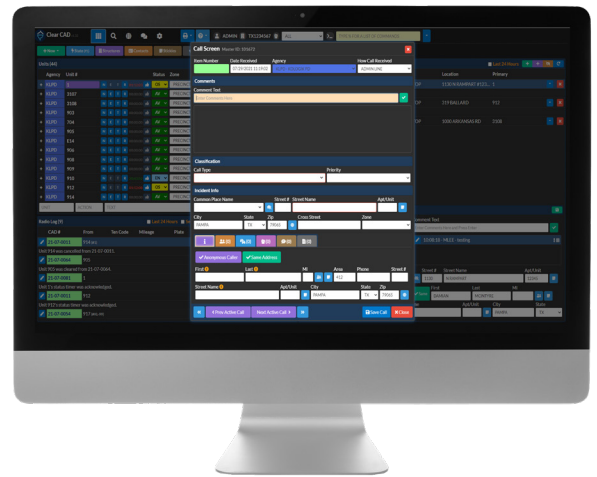

- ▷ CJIS COMPLIANT
- ▷ INTEROPERABLE
- ▷ AZURE GOVERNMENT CLOUD BASED
- ▷ FAST & FRIENDLY 24 x 7 x 365 SUPPORT
- ▷ REAL-TIME DATA
- ▷ UNPRECEDENTED FLEXIBILITY
- ▷ EASIER ACCESS
- ▷ EASY TO USE INTERFACES
- ▷ EFFICIENT WORKFLOWS
- ▷ UNPARALLELED FUNCTIONALITY

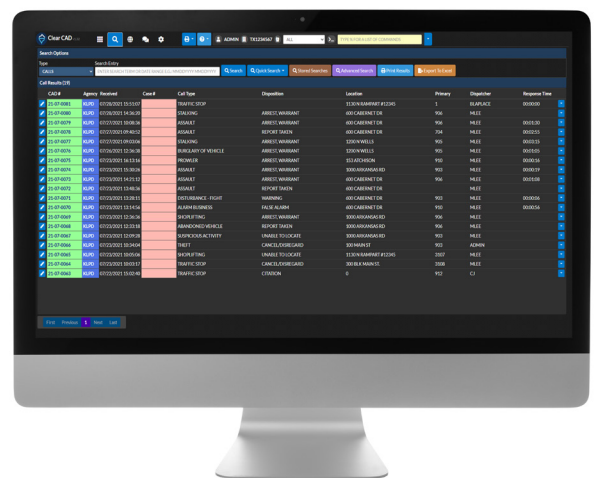

KOLOGIK's CAD gives users the information and tools necessary to help them make those critical decisions quickly and maximize situational awareness. From the moment a call comes in, CAD helps accelerate response times with advanced features that put critical information at a dispatcher's fingertips.

# FEATURES
