

COPSYNC

REAL TIME INFORMATION-SHARING WITHIN AND ACROSS AGENCIES

Kologik COPsync is one-stop software that makes life-saving data available to officers when and where they need it. A single keystroke can access driver's license, vehicle registration, and National Crime Information Center (NCIC) inquiries right from the patrol car. One query will render as much data as is available in an easy-to-read format.

AT A GLANCE

- ▶ **AZURE GOVERNMENT CLOUD BASED**
- ▶ **CJIS COMPLIANT**
- ▶ **FAST & FRIENDLY 24 x 7 x 365 SUPPORT**
- ▶ **INTEROPERABLE**
- ▶ **REAL-TIME DATA**
- ▶ **ROBUST SEARCH FUNCTIONALITY**
- ▶ **USER FRIENDLY**

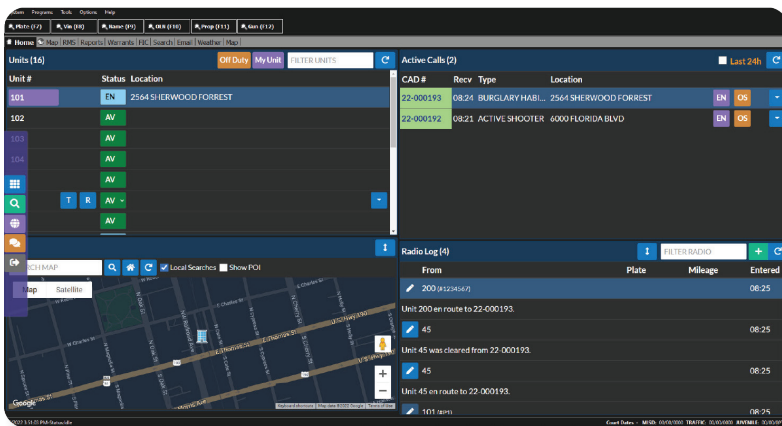

COPsync provides real-time information-sharing from the point of incident making it simple for officers to exchange information with other officers and administrators. It gives officers the ability to put themselves enroute, on scene, or out on a traffic stop. COPsync fully integrates with our CAD and RMS solutions and auto-populates forms, which reduces officer down-time on reports and citations.

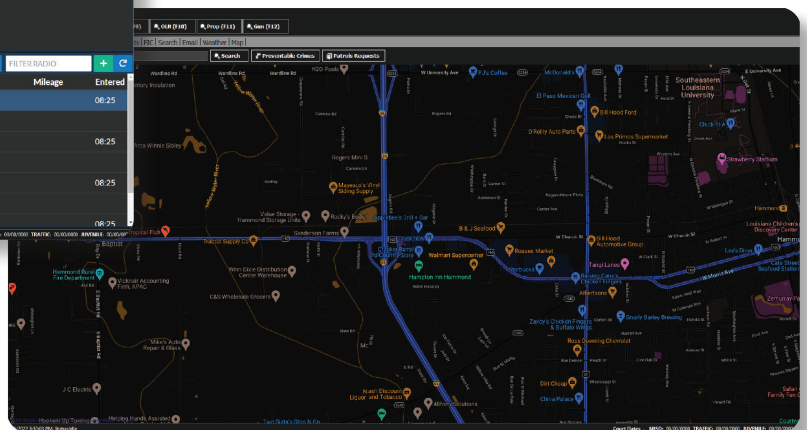

FEATURES and BENEFITS
