COPSYNC

REAL TIME INFORMATION-SHARING WITHIN AND ACROSS AGENCIES

Kologik COPsync is one-stop software that makes life-saving data available to officers when and where they need it and enables small to medium-sized agencies to manage day-to-day operations. COPsync provides one place for an officer to access the information needed to manage an incident. With one search, officers receive results from a variety of data sources, both national, local, and agency specific.

AT A GLANCE

▷ **CJIS & NIBRS COMPLIANT**

▷ **AZURE GOVERNMENT CLOUD BASED**

▷ **FAST & FRIENDLY 24/7 x 365 SUPPORT**

▷ **INTEROPERABLE**

▷ **REAL-TIME DATA**

▷ **ROBUST SEARCH FUNCTIONALITY**

▷ **USER FRIENDLY**

▷ **PATENTED FEATURES**

COPsync provides real-time information-sharing from the point of incident making it simple for officers to exchange information with other officers and administrators. COPsync is fully integrated with our CAD and RMS solutions and auto-populates forms, which reduces officer down-time on reports and citations.

FEATURES

▷ **INFORMATION GATHERING AND SHARING AT THE POINT OF INCIDENT**
Data entered on-scene is immediately available systemwide to all COPsync network subscribers, no matter where they're located–even if their agency uses a different records management system. COPsync also auto-saves information when you're in an area without cell service.

▷ **BOLO AND OTHER ALERTS**
Setting up "Be On the Lookout" alerts gives your officers crucial information about warrants and any special needs (such as mental disorders or health issues) before they arrive on scene.

▷ **ADVANCED SEARCH FUNCTIONALITY TO SERVE OFFICERS IN THE FIELD**
Quickly pull up driver's license, vehicle registration, NCIC, BOLOs and other alerts and data, including non-adjudicated information.

▷ **WRITE, FILE AND MANAGE CITATIONS AND REPORTS**
Use COPsync to create citations as well as incident, offense, crash and monthly NIBRS compliance reports and criminal trespass warnings. The software is customized and updated with the laws and statutes relevant to your state or jurisdiction.

▷ **CRIMINAL TRESPASS DATABASE**
Officers can readily generate Criminal Trespass Warnings and print them in the field. Once created, the warnings are stored in the COPsync Network database and available to all COPsync Network uers.

▷ **NATIONAL, STATE AND LOCAL CRIMINAL DATABASE ACCESS**
Criminal and vehicle history queries can be run by the officer from the vehicle against the following databases: COPsync Network, NICB database, federal, state, regional, and international law enforcement databases, as well as other proprietary databases.

▷ **SECURE INSTANT MESSAGING**
Any user of the system can be sent an instant message. The messaging is multi-jurisdictional and encrypted.

▷ **A SECURE IN-CAR SOLUTION THAT SEAMLESSLY INTEGRATES WITH THE REST OF THE KOLOGIK NETWORK**
COPsync is fully integrated with our CAD and RMS solutions and auto-populates forms, which reduces officer down-time on reports and citations.

COPSYNC
Real-time information-sharing within and across agencies

Fully integrate COPsync with the KOLOGIK Suite of interoperable public safety solutions:
CAD • RMS • JMS • COPsync Mobile
