# JMS
Jail Management System

A COMPLETE SUITE OF SOLUTIONS FOR MANAGING A JAIL FACILITY, FROM BOOKING TO RELEASE

Kologik's JMS is corrections software that simplifies and expedites booking times and manages a wide range of data, from charges and warrant information to inmate health, property and disciplinary incidents.
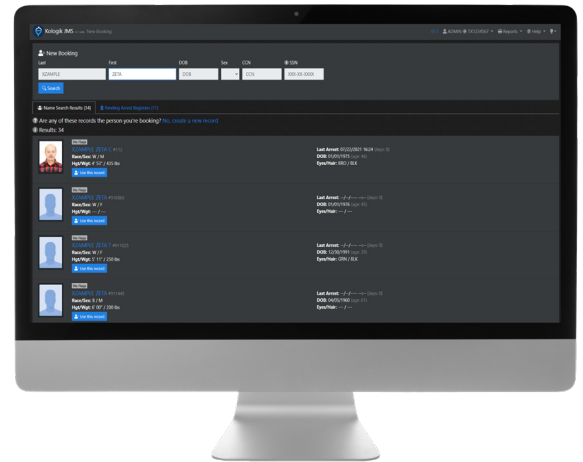

AT A GLANCE

▷ **CJIS COMPLIANT**
▷ **INTEROPERABLE**
▷ **AZURE GOVERNMENT CLOUD BASED**
▷ **FAST & FRIENDLY 24/7 x 365 SUPPORT**
▷ **UNPRECEDENTED FLEXIBILITY**
▷ **EASY TO USE INTERFACES**
▷ **EFFICIENT WORKFLOWS**
▷ **REAL TIME DATA**
▷ **SCALABLE**
▷ **STABLE AND SECURE**

KOLOGIK's jail management solution helps manage efficiency and operational overhead and tracks inmates from booking to release. JMS provides both inmate and facility management in one simple-to-use package across booking, jail incident reports, commissary, and visitor management. The user-friendly interface and simple, intuitive design of Kologik's JMS provides both a practical and impressive way to display the data that's most important to the user.
